

FRIDAY 16TH NOVEMBER 2018

Edition 2

A night to remember!

Last night was one of the highlights of our academy calendar and our chance to celebrate the achievements of students, past and present.... Keep an eye out for the photos next week!!

Spots and odd socks!

We've had a ball supporting Children in Need today! We're still counting the pennies so we'll let you know how much we raised next week!

So much has been going on across the academy and sixth form - from super healthy bikeathons and swimathons, to super scrumptious bake sales.....plus lots of spots and odd socks!! ...Oh and take a look at our sixth form students in fancy dress!...

Electrifying visit for Y11!

Thanks to our Enterprise Partner, OE Electrics, for hosting our Year 11 GCSE Product Design students this week to give them an insight into how the manufacturing process works.

This first-hand experience will be invaluable when they're writing about the processes in their GCSE Product Design exams, so thank you!!

Year 8's History trip!

Year 8 visited Liverpool's International Slavery Museum & Merseyside Maritime Museum this week in what was a very successful trip, designed to support their knowledge of the subject!

Dates for your diary....

Keep your diary up to date with help from our [online calendar](#).

The power of words!

Huge thanks to local poet, Craig Bradley, for visiting our book club and Year 7 students this week to deliver such an engaging and creative workshop about the meaning and power of words!

Choose respect...

This week, we've been supporting Anti-Bullying Week, reinforcing the Choose Respect message in lesson-based activities and through assemblies across the academy.... If you're looking for information and advice on the subject, for yourself or as a parent, you'll find it [here](#).

Stay safe online....

Offline or online, bullying is never OK.....Take a look at [this poster](#), created by National Online Safety for Anti-Bullying Week, which highlights everything you need to know about cyberbullying.
